#1

Rust

连续 3 天

buzz

A hive mind communication platform

Stars **10,820** Forks **844** Today **+3,270**

<https://github.com/block/buzz>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#2

TypeScript

连续 5 天

worldmonitor

Real-time global intelligence dashboard. AI-powered news aggregation, geopolitical monitoring, and infrastructure tracking in a unified situational awareness interface

Stars **73,805** Forks **11,073** Today **+2,184**

<https://github.com/koala73/worldmonitor>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#3

Python

连续 4 天

awesome-claude-skills

A curated list of awesome Claude Skills, resources, and tools for customizing Claude AI workflows

Stars **70,318** Forks **7,922** Today **+663**

<https://github.com/ComposioHQ/awesome-claude-skills>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#4

Rust

连续 3 天

Pumpkin

Empowering everyone to host fast and efficient Minecraft servers.

Stars **9,474** Forks **638** Today **+473**

<https://github.com/Pumpkin-MC/Pumpkin>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#5

Python

连续 4 天

Kronos

Kronos: A Foundation Model for the Language of Financial Markets

Stars **33,638** Forks **5,685** Today **+499**

<https://github.com/shiyu-coder/Kronos>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#6

Rust

连续 2 天

harper

Offline, privacy-first grammar checker. Fast, open-source, Rust-powered

Stars **13,195** Forks **492** Today **+876**

<https://github.com/Automattic/harper>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#7

TypeScript

连续 2 天

likec4

Visualize, collaborate, and evolve the software architecture with always actual and live diagrams from your code

Stars **5,131** Forks **338** Today **+337**

<https://github.com/likec4/likec4>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#8

JavaScript

连续 3 天

ego-lite

The fastest browser for AI agents to run web automation, built for sharing your logged-in browser state with your AI agents, like Codex or Claude Code, without disturbing you. Zero cost, zero config.

Stars **3,063** Forks **148** Today **+880**

<https://github.com/citrolabs/ego-lite>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#9

Go

连续 2 天

superfile

Pretty fancy and modern terminal file manager

Stars **19,810** Forks **608** Today **+338**

<https://github.com/yorukot/superfile>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}

#10

Rust

连续 2 天

RuView

π RuView turns commodity WiFi signals into real-time spatial intelligence, vital sign monitoring, and presence detection — all without a single pixel of video.

Stars **86,168** Forks **11,463** Today **+1,022**

<https://github.com/ruvnet/RuView>

AI 分析生成失败: Error code: 400 - {'error': {'message': 'The supported API model names are deepseek-v4-pro or deepseek-v4-flash, but you passed deepseek-chat.', 'type': 'invalid_request_error', 'param': None, 'code': 'invalid_request_error'}}
